

Professional Services

Imerja's portfolio of professional services is focused on delivering secure solutions to support and protect your business.

Imerja's approach to service delivery is customer centric – we make sure we understand your requirements, challenges, and technological goals, then work in partnership to ensure we deliver the most appropriate and cost effective solution.

Imerja boasts a wide range of professional services that provide a flexible approach to supporting customers through expansion, changes and consolidation to their IT and security infrastructure. These include policy, strategic and tactical security services, such as:

- Gap Analysis and ROSI
- Security Policy Development
- ISO27001 Assessment
- Security and Network Audit
- Penetration Testing
- Incident Management
- Security and Network Design Services
- Security and Network Implementation
- Project Management

For every project or assignment Imerja assembles a dedicated team drawing on the appropriate experience and expertise of its consultants, solutions architects, qualified engineers, project managers, industry analysts and Associates, who together work closely with the customer organisation to deliver end-to-end solutions that can be deployed and sustained locally or globally.

"We are delighted with the professional approach Imerja has applied in all its work for the Council, and in its constant adaptability and willingness to work with us rather than for us."
